**Re: WC Docket No. 14-58
2016 ETC Annual Report of Shidler Telephone Company
Study Area Code 432023**

Dear Ms. Dortch:

On behalf of Shidler Telephone Company ("Company"), JSI files the attached confidential version of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules.¹ Company seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information.² The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 of the Company's Progress Report on its Five-Year Service Quality Improvement Plan and of outage reporting as required by Section 54.313.³

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall
JSI Vice President
301-459-7590

**Re: WC Docket No. 14-58
2016 ETC Annual Report of Shidler Telephone Company
Study Area Code 432023
Request for Confidentiality**

Dear Ms. Dortch:

John Staurulakis, Inc. (“JSI”), on behalf of its client Shidler Telephone Company (the “Company”) hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission’s rules,¹ withholding from public inspection certain information contained in attachments to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).²

1. The information for which the Company is seeking confidential treatment are attachments to the Company’s annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission’s rules (“Report”).³
2. Rate-of-Return Eligible Telecommunications Carriers (“ETCs”) must file with the Commission a Five-Year Service Quality Improvement Plan (“Five-Year Plan”) Progress Report⁴ and must also report outages, both of which are contained in attachments to the 2016 Report.
3. The information contained in attachments for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company’s Five-Year Plan provided at FCC Form 481 Line 112 attachment. The Company also seeks withholding from public inspection data pertaining to the Company’s outages provided at FCC Form 481 Line 200 attachment, Service Outage Reporting. Information of this nature is confidential commercial information routinely withheld from public inspection.

¹ 47 C.F.R. §§ 0.457, 0.459.

² 47 C.F.R. § 0.459(b)(1) through (9).

³ 47 C.F.R. §§ 54.313, 54.422.

⁴ See *In the Matter of Connect America Fund*, WC Docket No. 10-90, Order DA 14-591 (rel. May 1, 2014).

4. With respect to identifying the degree to which the Five-Year Plan concerns a service that is subject to competition, the Line 112 attachment contains information of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment includes competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its *March 5, 2013 Order*, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories."⁵ Accordingly, because the Company is a rate-of-return carrier, it must file a five-year service improvement plan which contains proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

With respect to identifying the degree to which the outage data contained in the Line 200 attachment concerns a service that is subject to competition, the information pertains to the network and operations of a telecommunications company that has competitors that could benefit if they were able to have access to this information.

5. With respect to identifying possible exposure to competitive harm, the information contained in the subject attachments is information that is not customarily released to the public. The Five-Year Plan information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.
6. With respect to steps the Company has taken to ensure against unauthorized disclosure of the information contained in the attachments, the Company is filing the Five-Year Plan and outage attachments under seal. The Company uses the

⁵ See *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Order, DA 13-332 (rel. Mar. 5, 2013) ("*March 5, 2013 Order*") at para 9 citing Section 54.202(a) (1) (ii).

information contained in the Five-Year Plan to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.

7. Any previous versions of this information are not publicly available.
8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
9. The Commission has previously concluded that there is a presumptive likelihood of substantial competitive harm from disclosure of outage information.⁶ The Commission also determined the disclosure of outage reporting information to the public could present an unacceptable risk of more effective terrorist activity and could therefore result in potential harm to the public and the national defense.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment, and to the Company's outage data provided at FCC Form 481 Line 200 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall
JSI Vice President

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission’s public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.	Name of Attached Document Listing Required Information	
---	--	--

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.	Name of Attached Document Listing Required Information	
--	--	--

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.	Name of Attached Document Listing Required Information

Shidler Telephone Company

Study Area Code 432023

Response to Line 510 - Service Quality Standards and Consumer Protection Rules

Compliance – Voice and Broadband Service

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

Shidler Telephone Company (“Company”) hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with current service quality and consumer protection provisions under state and federal law. These provisions include, but are not limited to, the following: 1) the minimum directory requirements (OAC 165:55-7-1(e) (1); 2) the Truth-in-Billing Rules 47 CFR § 64.2401, as required in the OCC

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

⁴ *Id.* at n. 72.

rules at OAC 165:55-9-1; 3) CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

For its broadband service, Company hereby certifies that while there are no applicable state broadband service quality standards and consumer protection rules yet established under the Oklahoma Administrative Code, the Company discloses rates, terms and conditions on its public web site and the Company complies with federal and state customer protection standards generally applicable to all businesses operating in Oklahoma. In addition, the Company adheres to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the *2015 Open Internet Order*, as it applies to the Company.

Shidler Telephone Company

Study Area Code 432023

**Response to Line 610 - Ability to Function in Emergency Situations for Voice and
Broadband**

Shidler Telephone Company (“Company”) hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2).¹ The Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations also allows the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, the Company is able to function under emergency operations in accordance with Title 165, Chapter 55 of the Oklahoma Corporation Commission (OCC) regulations, which include the following subparts specific to emergency operations and adequacy of equipment:

1. 165:55-13-20. Responsibility for adequate and safe service
2. 165:55-13-22. Emergencies
3. 165:55-13-23. Adequacy of service
4. 165:55-13-24. Adequacy of equipment
5. 165:55-13-50. Service standards; sufficient operating and maintenance force
6. 165:55-13-53. Restoration of service plan

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

These rules require telecommunications service providers to maintain their networks and facilities so as to render safe, efficient, and continuous service, and to make adequate provision for emergencies in order to prevent interruption of continuous telecommunications service. The OCC rules also require that telecommunications service providers equip their central office facilities with an emergency power source, either on the premises or available on short notice. Finally, the OCC rules require all telecommunications service providers to have a written restoration of service plan, available for review upon request. The Company complies with all of the aforementioned OCC rules and federal regulations.

While these regulations do not specifically apply to broadband providers and services, the Company's Restoration of Service Plan and emergency power and facilities support both voice and broadband network equipment in the event of an emergency situation.

Shidler Telephone Company

Study Area Code 432023

Response to Line 920- Tribal Engagement Obligation

Shidler Telephone Company (“Company”) serves a small portion of the Osage Nation located in northern Oklahoma. The Company reached out to the Osage Nation in 2015 in an attempt to engage in discussion of the Osage Nation’s needs assessment and deployment planning for the communications needs of Tribal members and the Tribal government institution per the requirements of 47 C.F.R. §54.313(a)(9). In prior discussions, the Osage Nation responded that they were not prepared to discuss communications issues and would contact the Company at such time as they were ready to engage in those discussions. Thus far, the Osage Nation has not contacted the Company to engage in any such discussion. The Company continues to perform required Lifeline outreach and also provided its ETC annual report to the tribal nation annually.

The Company makes best efforts to bring advanced telecommunications services and broadband services to all individuals within its service territory, including all Tribal members. The Company looks forward to further contact in 2016 to determine how the Company’s service plans can be coordinated with the Osage Nation’s special needs and projects planned either in the area or nearby that would affect service.

SHIDLER TELEPHONE COMPANY

Via U.S. Mail, Return Receipt Requested

October 26, 2015

Chief Geoffrey Standing Bear
627 Grandview Avenue
Pawhuska, OK 74056

Dear Chief Standing Bear:

Shidler Telephone Company, an independent telecommunications provider serving the rural Osage County area, wishes to engage with the Osage government about broadband availability and opportunities on Tribally-owned lands within our service area. Shidler Telephone Company has been providing telecommunication services to the Shidler and Wynona rural areas since 1922 and broadband services since 2006, and we are interested in learning about any additional telecommunications needs that your community may have.

In November 2011, the Federal Communications Commission (FCC) comprehensively reformed the Universal Service Fund (USF) which helps companies like Shidler Telephone Company provide state-of-the-art communications services in high-cost and rural areas. Among the reforms, the FCC adopted a rule requiring Eligible Telecommunications Carriers who receive high-cost USF support to engage annually with Tribal leaders about broadband deployment on Tribally-owned lands and report on five specific outreach activities. In July 2012, the FCC's Office of Native Affairs Policy (ONAP) issued specific guidance on outreach and engagement activities between telecommunications providers and Tribal governments.

Shidler Telephone Company is pleased to inform you that our company provides landline telephone service and DSL broadband service. Shidler Telephone Company respectfully invites you and other leaders from the Osage government to discuss additional ways that we can meet your telecommunications and broadband needs. Specifically, we would like to discuss the following items:

- Needs assessment and deployment planning focused on anchor institutions (such as schools, libraries and health centers);
- Feasibility and sustainability planning;
- Marketing services in a culturally sensitive manner;
- Rights of way, permitting, facilities siting, environmental and cultural preservation processes;

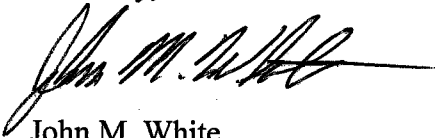

- Compliance with Tribal business licensing requirements

As Shidler Telephone Company already provides telephone service and broadband service to 100% of our customers, we believe many of the items above will not require an extensive discussion. However, Shidler Telephone Company is interested in learning whether your community has any specific broadband needs that our company may be able to meet, depending on the scope and scale of the project. For example, are there any needs such as distance learning or tele-medicine that we could help facilitate? We also want to make sure that we continue to respect your cultural heritage, property rights, business customs, and any other rules and procedures of your government.

Shidler Telephone Company is a locally-owned company headquartered in Shidler, Oklahoma, and we have been serving this area for 93 years. We are dedicated to serving and employing members of our community and we want to ensure that the Osage is well served.

Shidler Telephone Company extends this invitation to set up an in-person meeting or conference call with members of your Tribal government at your earliest convenience. Please contact me if you are interested in coordinating such a meeting. We look forward to discussing these important issues with you.

Sincerely,

A handwritten signature in black ink, appearing to read "John M. White", with a stylized flourish at the end.

John M. White

Shidler Telephone Company

Study Area Code 432023

Response to Line 3010 – Milestone Certification (47 CFR §54.313(f)(1)(i))

Shidler Telephone Company hereby certifies that throughout 2015, it took reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas and that requests for such service are met within a reasonable amount of time. If a request for broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream is unreasonable, and offering broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream is reasonable, Shidler Telephone Company offers broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream.
